Monte Timber Collection by Joseph Dibenedetto and James Tsarouhas

Door Handle: The Monte Timber Collection offers a blend of minimalist design, innovation and impeccable craftsmanship. The designers use soft and warm materials of timber as a response to the emphasis in quality materials demanded in modern architectural designs. The Timber Quad has sleek, square lines and confident appearance design. The Timber Club has soft contours with bold lines to add elegant look to any doors. The Timber Lanex's hand piece blends the simple shaped of a cylinder and cuboid to result in a decorative style that is both delicate and timeless.
